10 Principal Arguments and Other Matters

Applicant argued that Kuras provides a clear teaching away, at column 4, lines 55-67, from the Examiner's assertion that it would have been obvious to one of skill in the art to have modified Kuras by replacing the fiberglass layer 18 with an electrically conductive material.

Results of Interview

15 The Examiner indicated that she understood Applicant's argument, but that she would have to consider the case more carefully.
